

# Bartow Boy's Basketball Team – Player Profile – The 411

Personal 411:

Player Name and #                   #34 - **Deone'Ta Levy**  
Year:                                    Class of 2011  
Parents/Guardian Name:           Ruthie Hughes (grandma), Diane Campbell (mom)  
Brothers and Sisters:              Lakendra Campbell & Porsha Keys

What are your thoughts on the upcoming season? **I am very excited about this year's upcoming season. We have all the right components to accomplish great things on and off the court this year. All we have to do is stay focused, working hard, and continue to get better as a team. I plan on taking it day by day and striving to become a better ball player every time I hit the court. We have been working hard and we are ready to show what Bartow basketball is all about.**

What are your plans for life after high school? **After high school, I plan on going to college and working towards becoming a software engineer. I also plan on doing other things such as being a millionaire, buying my own country and putting a Siberian tiger I my back yard. BIG MONEY! I LIKE IT!**

What do the city of Bartow and the community support that the team has mean to you? **The City of Bartow and the community support means a lot to me. I think we have the best fans in Polk County, because no matter what, they're always here to support us and we can count on them to have our backs. We have great sponsors who help us out a lot with things such as pre-game meals, etc. I personally like the atmosphere that surrounds the basketball program and who the whole city is very supportive of our efforts.**

Talk about all that you have been through here that has been hard but worth it. Talk about the plyometrics, the weightlifting, the long practices, the high demands. **This is not what you want. Everything we do is very tough and demanding. Plyometrics was a couple of hours packed with defensive slides around the track, weightlifting, stadiums, ball hops and ladders. Once again, this is not what you want! The stadiums will bust you up. We have two hour practices full of non-stop hard work. And though it is hard, it is very much worth it. We all know that it will pay off when it's all said and done.**

Talk about how you feel about each coach in the program? **I'm thankful for the coaches we have. Even though they can be hard on us sometimes, I know that it's only for our benefit and that they wouldn't do anything to put us down. There couldn't be a team without the coaches.**

What will be your legacy here beyond the court? **When I leave here, I want to be remembered for being positive all the time on and off the court. I want Levybron to be thought of as a peace maker. Also as someone we wasn't afraid to be different.**

Your favorite quote: **"An eye for an eye only makes the whole world go blind."**
