What are your thoughts on the upcoming season? **My thoughts about the upcoming season are that it is looking very good. As we work hard everyday and everyone trust each other, I think we will have a great season. I am a new player on the team and it is my job to learn all of the plays and watch how the other players play so that when I get in I will be able to match them. If we can come together and play as one we can win states this year. Playing for Bartow has made me helped to make me a better player.**

What are your plans for life after high school? **My plans for after high school are to go to college and play at a high level. I also plan to go to college and try to major in computers. I would go anywhere that gives me a full ride.**

What does the city of Bartow and the community support that the team has mean to you? **How the City of Bartow supports our basketball team means a lot to me. Just seeing people come out to watch us play and people/businesses giving us meals and things shows that they want to see us do good. It is our job to repay them by winning state. The city of Bartow are our biggest supporters and everyone is like a big family.**

Talk about all that you have been through here that has been hard but worth it. Talk about the ply metrics, the weightlifting, the long practices, the high demands. **Going through ply metrics and weightlifting and the long practices was hard! But it has made me better. My first time doing ply metrics I was thinking I was going to die and that he (McGriff) was my killer. But once we started practices I saw I was jumping higher, running faster. My legs, after the first day of plyos, I felt like they were going to pop out of place. But after a week or two, you get used to it and it helps you in the end.**

Taught about how you feel about each coach in the program? **I think we have some great coaches and they want to see use do well and they want to see us have a good season. They are willing to do anything for us to have one.**

What will be your legacy here beyond the court? **1<sup>st</sup> year player. No legacy yet.**

Your favorite quote: **Bartow Basketball is not for everyone!**
