What are your thoughts on the upcoming season? **We are going to be the best team first in the district, then region, and then state. But I also know that it is not going to be easy and that we are going to have to work consistently hard every day.**

We cannot miss a beat if we want to achieve our goal of winning the state title. And I know the coaches are going to do their part to ensure that this process happens. But we also have to pitch in and do our part. That means we have to be ready to work and be precise.

What are your plans for life after high school? **My plans are to attend college and play basketball there. I want to major in sports medicine and I want to finish all four years so that I will have something to fall back on. Also I want to be a graphic arts instructor, but I need to look into that more.**

What do the city of Bartow and the community support that the team has mean to you? **It's really great! I just love it and I think that we are very fortunate to have a community that shows support. I mean it just excites the team, it excites me as well and I don't think that we could ask for anything more. It's great!**

Talk about all that you have been through here that has been hard but worth it. Talk about the plyometrics, the weightlifting, the long practices, the high demands. **This stuff we do is not for everybody. But if you want to learn work ethic this is the place to be. It is worth it.**

Talk about how you feel about each coach in the program? **Coaches are great. They really work hard!**

What will be your legacy here beyond the court?? **No comment**

Your favorite quote: **The game is what you make it!**
